COLLA 2017

Foreword

The Seventh International Conference on Advanced Collaborative Networks, Systems and Applications (COLLA 2017), held between July 23 - 27, 2017 - Nice, France, continued a series of events dedicated to advanced collaborative networks, systems and applications, focusing on new mechanisms, infrastructures, services, tools and benchmarks.

Collaborative systems became a norm due to the globalization of services and infrastructures and to multinational corporation branches. While organizations and individuals relied on collaboration for decades, the advent of new technologies (Web services, Cloud computing, Service-oriented architecture, Semantics and Ontology, etc.) for inter- and intraorganization collaboration created an enabling environment for advanced collaboration.

As a consequence, new developments are expected from current networking and interacting technologies (protocols, interfaces, services, tools) to support the design and deployment of a scalable collaborative environments. Innovative systems and applications design, including collaborative robots, autonomous systems, and consideration for dynamic user behavior is the trend.

We take here the opportunity to warmly thank all the members of the COLLA 2017 Technical Program Committee, as well as the numerous reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and efforts to contribute to COLLA 2017. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations, and sponsors. We are grateful to the members of the COLLA 2017 organizing committee for their help in handling the logistics and for their work to make this professional meeting a success.

We hope that COLLA 2017 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in the field of collaborative networks, systems and applications.

We are convinced that the participants found the event useful and communications very open. We also hope that Nice provided a pleasant environment during the conference and everyone saved some time for exploring this beautiful city.

COLLA 2017 Chairs:

COLLA Steering Committee

Lasse Berntzen, University College of Southeast, Norway Thomas Schuster, University of Applied Sciences Pforzheim, Germany Mudasser F. Wyne, National University, USA Wolfgang Mauerer, Technical University of Applied Sciences Regensburg / Siemens AG Corporate Research, Germany
Hassan A. Karimi, University of Pittsburgh, USA
Atsuo Hazeyama, Tokyo Gakugei University, Japan
Yung-Ting Chuang, National Chung Cheng University, Taiwan

COLLA Industry/Research Advisory Committee

Jingjing Wang, Google, USA Niyati Chhaya, Adobe Research, India Giuliana Dettori, Istituto per le Tecnologie Didattiche, Genova, Italy
