DIGITAL 2024

Forward

The Advances on Societal Digital Transformation 2024 (DIGITAL 2024), held between June 30th and July 4th, 2024, continued a series of international events covering a large spectrum of topics related to digital transformation of our society.

The society is continuously changing at a rapid pace under digital transformation. Taking advantage of a solid transformation of digital communication and infrastructures, and with great progress in Al (Artificial Intelligence), IoT (Internet of Thinks), ML (Machine Learning), Deep Learning, Big Data, Knowledge acquisition and Cognitive technologies, almost all societal areas are redefined.

Transportation, Buildings, Factories, and Agriculture are now a combination of traditional and advanced technological features. Digital citizen-centric services, including health, well-being, community participation, learning and culture are now well-established and set to advance further on.

As counter-effects of digital transformation, notably fake news, digital identity risks and digital divide are also progressing in a dangerous rhythm, there is a major need for digital education, fake news awareness, and legal aspects mitigating sensitive cases.

We take here the opportunity to warmly thank all the members of the DIGITAL 2024 technical program committee, as well as all the reviewers. The creation of such a high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to DIGITAL 2024. We truly believe that, thanks to all these efforts, the final conference program consisted of top-quality contributions. We also thank the members of the DIGITAL 2024 organizing committee for their help in handling the logistics of this event.

We hope that DIGITAL 2024 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in the field of societal digital transformation. We also hope that Porto provided a pleasant environment during the conference and everyone saved some time to enjoy the historic charm of the city.

DIGITAL 2024 Chairs

DIGITAL 2024 Steering Committee

Sibylle Kunz, IU Internationale Hochschule, Germany Fernando Joaquim Lopes Moreira, Universidade Portucalense, Portugal Júlio Monteiro Teixeira, Universidade Federal de Santa Catarina, Brazil Claudia Heß, IU Internationale Hochschule, Germany

DIGITAL 2024 Publicity Chairs

Laura Garcia, Universidad Politécnica de Cartagena, Spain Lorena Parra Boronat, Universitat Politecnica de Valencia, Spain José Miguel Jiménez, Universitat Politecnica de Valencia, Spain
