

GEOProcessing 2024

Forward

The Sixteenth International Conference on Advanced Geographic Information Systems, Applications, and Services (GEOProcessing 2024), held between May 26th and May 30th, 2024, in Barcelona, Spain, continued a series of events addressing the aspects of managing geographical information and web services.

The goal of the GEOProcessing 2024 conference was to bring together researchers from the academia and practitioners from the industry in order to address fundamentals of advances in geographic information systems and the new applications related to them using the Web Services. Such systems can be used for assessment, modeling, and prognosis of emergencies.

GEOProcessing 2024 provided a forum where researchers were able to present recent research results and new research problems and directions related to them. The topics covered aspects from fundamentals to more specialized topics such as 2D & 3D information visualization, web services and geospatial systems, geoinformation processing, and spatial data infrastructure.

We take here the opportunity to warmly thank all the members of the GEOProcessing 2024 technical program committee, as well as all the reviewers. The creation of such a high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to GEOProcessing 2024. We truly believe that, thanks to all these efforts, the final conference program consisted of top-quality contributions. We also thank the members of the GEOProcessing 2024 organizing committee for their help in handling the logistics of this event.

We hope that GEOProcessing 2024 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in the field of geographic information systems, applications, and services.

GEOProcessing 2024 Chairs

GEOProcessing 2024 Steering Committee Chair

Claus-Peter Rückemann, Universität Münster / DIMF / Leibniz Universität Hannover, Germany

GEOProcessing 2024 Steering Committee

Thomas Ritz, FH Aachen, Germany

Yerach Doytsher, Technion - Israel Institute of Technology, Haifa, Israel

Roger Tilley, Sandia National Laboratories, USA

Alexey Cheptsov, Information Service Center of the University of Stuttgart (TIK), Germany

Jui-Hsin (Larry) Lai, Ping-An Technology - Research Lab, USA

GEOProcessing 2024 Publicity Chairs

Sandra Viciano Tudela, Universitat Politecnica de Valencia, Spain

Laura Garcia, Universidad Politécnica de Cartagena, Spain
