

GREEN 2019

Forward

The Fourth International Conference on Green Communications, Computing and Technologies (GREEN 2019), held between October 27, 2019 and October 31, 2019 in Nice, France, continues the series of events focusing on current solutions, stringent requirements for further development, and evaluations of potential directions. The event targets are bringing together academia, research institutes, and industries working towards green solutions.

Expected economic, environmental and society wellbeing impact of green computing and communications technologies led to important research and solutions achievements in recent years. Environmental sustainability, high-energy efficiency, diversity of energy sources, renewable energy resources contributed to new paradigms and technologies for green computing and communication.

Economic metrics and social acceptability are still under scrutiny, despite the fact that many solutions, technologies and products are available. Deployment at large scale and a long term evaluation of benefits are under way in different areas where dedicated solutions are applied.

We take here the opportunity to warmly thank all the members of the GREEN 2019 technical program committee, as well as all the reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to GREEN 2019. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

We also thank the members of the GREEN 2019 organizing committee for their help in handling the logistics and for their work that made this professional meeting a success.

We hope that GREEN 2019 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the field of green communications, computing and technologies. We also hope that Nice, France provided a pleasant environment during the conference and everyone saved some time to enjoy the charm of the city.

GREEN 2019 Chairs

GREEN Steering Committee

Ishfaq Ahmad, University of Texas - Arlington, USA

Carlos Becker Westphall, Federal University of Santa Catarina, Brazil

Wilfried Elmenreich, University of Klagenfurt, Austria

Bo Nørregaard Jørgensen, University of Southern Denmark, Denmark

Coral Calero, University of Castilla-La Mancha, Spain

GREEN Research/Industry Committee

Steffen Fries, Siemens AG, Germany

Daisuke Mashima, Advanced Digital Sciences Center, Singapore

Nanpeng Yu, University of California, Riverside, USA

Enrique Romero-Cadaval, University of Extremadura, Spain
