ICIMP 2014

Foreword

The Ninth International Conference on Internet Monitoring and Protection (ICIMP 2014), held between July 20-24, 2014, in Paris, France, continued a series of special events targeting security, performance, vulnerabilities in Internet, as well as disaster prevention and recovery.

We take here the opportunity to warmly thank all the members of the ICIMP 2014 Technical Program Committee, as well as all of the reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and efforts to contribute to ICIMP 2014. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations, and sponsors. We are grateful to the members of the ICIMP 2014 organizing committee for their help in handling the logistics and for their work to make this professional meeting a success.

We hope that ICIMP 2014 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in the field of Internet monitoring and protection.

We are convinced that the participants found the event useful and communications very open. We hope that Paris, France, provided a pleasant environment during the conference and everyone saved some time to enjoy the charm of the city.

ICIMP 2014 Chairs:

ICIMP Advisory Committee
Go Hasegawa, Osaka University, Japan
Sathiamoorthy Manoharan, University of Auckland, New Zealand
