

ICN 2024

Forward

The Twenty-Third International Conference on Networks (ICN 2024), held between May 26-30, 2024 in Barcelona, Spain, continued a series of events organized by and for academic, research and industrial partners.

We solicited both academic, research, and industrial contributions. We welcomed technical papers presenting research and practical results, position papers addressing the pros and cons of specific proposals, such as those being discussed in the standard fora or in industry consortia, survey papers addressing the key problems and solutions on any of the above topics short papers on work in progress, and panel proposals.

The conference had the following tracks:

- Communication
- Networking
- Advances in Software Defined Networking and Network Functions Virtualization
- Next generation networks (NGN) and network management
- Computation and networking
- Topics on Internet Censorship and Surveillance

We take here the opportunity to warmly thank all the members of the ICN 2024 technical program committee, as well as all the reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to ICN 2024. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

We also thank the members of the ICN 2024 organizing committee for their help in handling the logistics and for their work that made this professional meeting a success.

We hope that ICN 2024 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the field of networks. We also hope that Barcelona provided a pleasant environment during the conference and everyone saved some time to enjoy the historic charm of the city.

ICN 2024 Chairs

ICN Steering Committee

Pascal Lorenz, University of Haute Alsace, France

Eugen Borcoci, National University of Science and Technology Politehnica Bucharest, Romania

Muath Obaidat, City University of New York, USA

Shintaro Mori, Fukuoka University, Japan

ICN Publicity Chairs

Laura Garcia, Universidad Politécnica de Cartagena, Spain

Sandra Viciano Tudela, Universitat Politecnica de Valencia, Spain
