

ICWMC 2022

Forward

The Eighteenth International Conference on Wireless and Mobile Communications (ICWMC 2022) continued a series of events addressing wireless related topics concerning integration of latest technological advances to realize mobile and ubiquitous service environments for advanced applications and services in wireless networks. Mobility and wireless, special services and lessons learnt from a particular deployment complemented the traditional wireless topics.

We welcomed technical papers presenting research and practical results, position papers addressing the pros and cons of specific proposals, such as those being discussed in the standard fora or in industry consortia, survey papers addressing the key problems and solutions on any of topics, short papers on work in progress, workshops and panel proposals.

We take here the opportunity to warmly thank all the members of the ICWMC 2022 technical program committee, as well as all the reviewers. The creation of such a high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to ICWMC 2022. We truly believe that, thanks to all these efforts, the final conference program consisted of top-quality contributions. We also thank the members of the ICWMC 2022 organizing committee for their help in handling the logistics of this event.

ICWMC 2022 Chairs

ICWMC 2022 Steering Committee

Dragana Krstic, University of Niš, Serbia
Rajat Kumar Kochhar, Ericsson, Sweden
Magnus Jonsson, Halmstad University, Sweden

ICWMC 2022 Publicity Chairs

Mar Parra, Universitat Politècnica de València (UPV), Spain
Hannah Russell, Universitat Politècnica de València (UPV), Spain
