

PATTERNS 2022

Forward

The Fourteenth International Conferences on Pervasive Patterns and Applications (PATTERNS 2022), held on April 24 - 28, 2022, continued a series of events targeting the application of advanced patterns, at-large. In addition to support for patterns and pattern processing, special categories of patterns covering ubiquity, software, security, communications, discovery and decision were considered. It is believed that patterns play an important role on cognition, automation, and service computation and orchestration areas. Antipatterns come as a normal output as needed lessons learned.

The conference had the following tracks:

- Patterns basics
- Patterns at work
- Discovery and decision patterns
- Medical and facial image patterns
- Tracking human patterns

Similar to the previous edition, this event attracted excellent contributions and active participation from all over the world. We were very pleased to receive top quality contributions.

We take here the opportunity to warmly thank all the members of the PATTERNS 2022 technical program committee, as well as the numerous reviewers. The creation of a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors that dedicated much of their time and effort to contribute to PATTERNS 2022. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations and sponsors. We also gratefully thank the members of the PATTERNS 2022 organizing committee for their help in handling the logistics and for their work that made this professional meeting a success.

We hope PATTERNS 2022 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the area of pervasive patterns and applications. We also hope that Barcelona provided a pleasant environment during the conference and everyone saved some time to enjoy the historic charm of the city

PATTERNS 2022 Steering Committee

Herwig Manaert, University of Antwerp, Belgium
Wladyslaw Homenda, Warsaw University of Technology, Poland
Patrick Siarry, Université Paris-Est Créteil, France
Yuji Iwahori, Chubu University, Japan
Alexander Mirnig, University of Salzburg, Austria

Adel Al-Jumaily, University of Technology, Australia
George A. Papakostas, International Hellenic University – Kavala, Greece

PATTERNS 2022 Publicity Chair

Javier Rocher, Universitat Politècnica de València, Spain
Lorena Parra, Universitat Politecnica de Valencia, Spain
