

# SIGNAL 2021

## Foreword

The Sixth International Conference on Advances in Signal, Image and Video Processing (SIGNAL 2021), held between May 30 – June 3rd, 2021, continued the inaugural event considering the challenges mentioned above. Having these motivations in mind, the goal of this conference was to bring together researchers and industry and form a forum for fruitful discussions, networking, and ideas.

Signal, video and image processing constitutes the basis of communications systems. With the proliferation of portable/implantable devices, embedded signal processing became widely used, despite that most of the common users are not aware of this issue. New signal, image and video processing algorithms and methods, in the context of a growing-wide range of domains (communications, medicine, finance, education, etc.) have been proposed, developed and deployed. Moreover, since the implementation platforms experience an exponential growth in terms of their performance, many signal processing techniques are reconsidered and adapted in the framework of new applications. Having these motivations in mind, the goal of this conference was to bring together researchers and industry and form a forum for fruitful discussions, networking, and ideas.

We take here the opportunity to warmly thank all the members of the SIGNAL 2021 Technical Program Committee, as well as the numerous reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and efforts to contribute to SIGNAL 2021. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations, and sponsors. We are grateful to the members of the SIGNAL 2021 organizing committee for their help in handling the logistics and for their work to make this professional meeting a success.

We hope that SIGNAL 2021 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in the field of signal processing.

We are convinced that the participants found the event useful and communications very open.

### **SIGNAL 2021 Chairs:**

#### **SIGNAL 2021 Steering Committee**

Wilfried Uhring, Université de Strasbourg, France

Jérôme Gilles, San Diego State University, USA

Constantin Paleologu, Polytechnic University of Bucharest, Romania

Sergey Y. Yurish, Excelera, S. L. | IFSA

SpainPavel Loskot, Swansea University, UK

#### **SIGNAL 2021 Industry/Research Advisory Committee**

Filippo Vella, National Research Council of Italy, Italy

Tudor-Catalin Zorila, Toshiba Cambridge Research Laboratory, UK

Laurent Fesquet, Grenoble Institute of Technology - TIMA, France

Zhongyuan Zhao, Beijing University of Posts and Telecommunications, China

Demetrios Sampson, Curtin University, Australia

Andrea Kutics, International Christian University, Japan

**SIGNAL 2021 Publicity Chairs**

Daniel Basterretxea, Universitat Politecnica de Valencia, Spain

Marta Botella-Campos, Universitat Politecnica de Valencia, Spain
