

SMART ACCESSIBILITY 2022

Forward

The Seventh International Conference on Universal Accessibility in the Internet of Things and Smart Environments (SMART ACCESSIBILITY 2022) was held in Porto, Portugal, June 26 - 30, 2022..

There are several similar definitions for universal accessibility, such as design for all, universal design, inclusive design, accessible design, and barrier free design. These and similar approaches are relevant to this conference. The focus will be on methods, tools, techniques and applications for human diversity, social inclusion and equality, enabling all people to have equal opportunities and to participate in the information society.

The accepted papers covered topics such as accessibility by design, digital inclusion, accessibility devices and applications. We believe that the SMART ACCESSIBILITY 2022 contributions offered a large panel of solutions to key problems in areas of accessibility.

We take here the opportunity to warmly thank all the members of the SMART ACCESSIBILITY 2022 technical program committee as well as the numerous reviewers. The creation of such a broad and high quality conference program would not have been possible without their involvement. We also kindly thank all the authors that dedicated much of their time and efforts to contribute to the SMART ACCESSIBILITY 2022. We truly believe that thanks to all these efforts, the final conference program consists of top quality contributions.

This event could also not have been a reality without the support of many individuals, organizations and sponsors. In addition, we also gratefully thank the members of the SMART ACCESSIBILITY 2022 organizing committee for their help in handling the logistics and for their work that is making this professional meeting a success.

We hope the SMART ACCESSIBILITY 2022 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the universal accessibility field. We also hope that Porto provided a pleasant environment during the conference and everyone saved some time for exploring this beautiful city

SMART ACCESSIBILITY 2022 Chairs

Daniela Marghitu, Auburn University - Auburn, USA
Lasse Berntzen, University of South-Eastern Norway, Norway
Raju Shrestha, OsloMet - Oslo Metropolitan University, Norway

SMART ACCESSIBILITY 2022 Publicity Chair

Laura Garcia, Universitat Politècnica de València (UPV), Spain
José Miguel Jiménez, Universitat Politècnica de Valencia, Spain
