

SOFTENG 2022

Forward

The Eighth International Conference on Advances and Trends in Software Engineering (SOFTENG 2022) continued a series of events focusing on challenging aspects for software development and deployment, across the whole life-cycle.

Software engineering exhibits challenging dimensions in the light of new applications, devices and services. Mobility, user-centric development, smart-devices, e-services, ambient environments, e-health and wearable/implantable devices pose specific challenges for specifying software requirements and developing reliable and safe software. Specific software interfaces, agile organization and software dependability require particular approaches for software security, maintainability, and sustainability.

We take here the opportunity to warmly thank all the members of the SOFTENG 2022 technical program committee, as well as all the reviewers. The creation of such a high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to SOFTENG 2022. We truly believe that, thanks to all these efforts, the final conference program consisted of top-quality contributions. We also thank the members of the SOFTENG 2022 organizing committee for their help in handling the logistics of this event.

SOFTENG 2022 Chairs

SOFTENG 2022 Steering Committee

Paolo Maresca, VERISIGN, Switzerland
Zeeshan Ali Rana, NUCES, Lahore, Pakistan

SOFTENG 2022 Publicity Chairs

Javier Rocher, Universitat Politècnica de València, Spain
Lorena Parra, Universitat Politècnica de València, Spain
