

eKNOW 2022

Forward

The Fourteenth International Conference on Information, Process, and Knowledge Management (eKNOW 2022) was held in Porto, Portugal, June 26 - 30, 2022. The event was driven by the complexity of the current systems, the diversity of the data, and the challenges for mental representation and understanding of environmental structure and behavior.

Capturing, representing, and manipulating knowledge was and still is a fascinating and extremely useful challenge from both theoretical and practical perspective. Using validated knowledge for information and process management and for decision support mechanisms raised a series of questions the eKNOW 2022 conference was aimed at.

eKNOW 2022 provided a forum where researchers were able to present recent research results and new research problems and directions related to them. The topics covered aspects from knowledge fundamentals to more specialized topics such as process analysis and modeling, management systems, semantics processing and ontology.

We take this opportunity to thank all the members of the eKNOW 2022 Technical Program Committee as well as the numerous reviewers. The creation of such a broad and high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and efforts to contribute to the eKNOW 2022. We truly believe that, thanks to all these efforts, the final conference program consists of top quality contributions.

This event could also not have been a reality without the support of many individuals, organizations, and sponsors. We are grateful to the members of the eKNOW 2022 organizing committee for their help in handling the logistics and for their work to make this professional meeting a success.

We hope that eKNOW 2022 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in knowledge management research. We also hope that Porto provided a pleasant environment during the conference and everyone saved some time for exploring this beautiful city

eKNOW 2022 Chairs

eKNOW Steering Committee

Susan Gauch, University of Arkansas, USA

Martijn Zoet, Zuyd University of Applied Science, The Nederland

Samia Aitouche, Laboratory of Automation and Manufacturing (LAP), University Batna 2, Algeria

Eric J.H.J. Mantelaers, Zuyd University of Applied Sciences, Sittard, the Netherlands

eKNOW 2022 Publicity Chair

Laura Garcia, Universitat Politècnica de València (UPV), Spain

José Miguel Jiménez, Universitat Politecnica de Valencia, Spain
