

Table of Contents

Network Complexity Models for Automated Cyber Range Security Capability Evaluations <i>Thomas Klemas and Lee Rossey</i>	1
Advanced Swarm Imaging for Three-Dimensional Mapping <i>Martin L. Duncan, Paul D. Weil, and Thomas J. Klemas</i>	7
Cyber Assessor: Assessment Framework to Characterize Cyber Aptitudes <i>Thomas Klemas</i>	11
Intelligent Data Leak Detection Through Behavioural Analysis <i>Ricardo Costeira and Henrique Santos</i>	17
Quantifiable Measurement Scheme for Mobile Code Vulnerability Based on Machine-Learned API Features <i>Hyunki Kim, Joonsang Yoo, and Jeong Hyun Yi</i>	27
Single Sign-On Webservice with Adaptable Multi Factor Authentication <i>Sandra Kubler, Christian Rinjes, Anton Wiens, and Michael Massoth</i>	29
Forensic Analysis of the Recovery of Wickr's Ephemeral Data on Android Platforms <i>Thomas Edward Allen Barton and M A Hannan Bin Azhar</i>	35
Designing An IEC 61850 Based Power Distribution Substation Simulation/Emulation Testbed for Cyber-Physical Security Studies <i>Eniye Tebekaemi and Duminda Wijesekera</i>	41
Exchanging Database Writes with Modern Crypto <i>Andreas Happe and Thomas Loruenser</i>	50
Experiment of Sensor Fault Tolerance Algorithm combined with Cyber System for Coil Tilter on the Smart Hybrid Powerpack <i>Jaegwang Lee, Janggeol Nam, Buchun Song, Hyeonwoo Kim, Iksu Choi, and Hunmo Kim</i>	54
An Approach for Protecting Privacy in the IoT <i>George O. M. Yee</i>	60
Consideration of Security Threats for Identification System in Internet of Things <i>Daewon Kim, Jeongnyeo Kim, and Yongsung Jeon</i>	67
Advanced Device Authentication: Bringing Multi-Factor Authentication and Continuous Authentication to the Internet of Things <i>Rainer Falk and Steffen Fries</i>	69
