Table of Contents

Integrating Spatial Information into JSF Java EE Web Applications with GeoJSF 1
Thorsten Kisner, Helge Hemmer, and Klaus Jacobi

City Energy Management: A Case Study on the Urban Area of Liege in Belgium 7
Sigrid Reiter

Specification for a shared conceptual layer in GIS 13
Enguerran Grandchamp

Understanding Geographic Routing in Vehicular Ad Hoc Networks 17
Reinaldo Bezerra Braga and Herve Martin

Envelope Interfaces for Geoscientific Processing with High Performance Computing and Information Systems 23
Claus-Peter Ruckemann

An Integrated Geospatial Data Management System in a Complex Public Research Environment using Free and Open Source Software 29
Christian Braun and Ulrich Leopold

Analysis of Radio Communication Attenuation Using Geoprocessing Techniques 33
Mehdi Mekni and Bernard Moulin

Determining the Geographical Origin of a Serial Offender Considering the Temporal Uncertainty of the Recorded Crime Data 40
Marie Trotta, Benoit Bidaine, and Jean-Paul Donnay

Water Area Extraction from RGB Aerophotograph Based on Chromatic and Textural Analysis 46
Meng Zhao, Huazhe Shang, Wenchao Huang, Lizhi Zou, and Yongjun Zhang

O*: A Bivariate Best First Search Algorithm to Process Optimal Sequence Traversal Query in a Graph 53
Qifeng Lu and Kathleen Hancock

On Pre-Processing for Least-Cost Carpooling Routing in a Transportation Network 62
Qifeng Lu

A Heuristic Approach Based on the Ant Colony Optimization for the Routes Elaboration on the Fuel Collection for the Brazilian Petrolium Agency 69
Alex Barradas, Adriano dos Santos, Sofiani Labidi, and Nilson Costa

Geographic Information System Models of 40-Year Spatial Development of Towns in the Czech Republic 75
Lena Halounova, Karel Veprek, and Martin Rehak
