

Table of Contents

Code-Stop: Code-Reuse Prevention by Context-Aware Traffic Proxying <i>Terrence OConnor and William Enck</i>	1
Detecting Obfuscated JavaScripts Using Machine Learning <i>Simon Aebersold, Krzysztof Kryszczuk, Sergio Paganoni, Bernhard Tellenbach, and Timothy Trowbridge</i>	11
Performance Study of a Software Defined Network Emulator <i>Jose M. Jimenez, Oscar Romero, Albert Rego, Avinash Dilendra, and Jaime Lloret</i>	17
A Study on How to Characterize TCP Congestion Control Algorithms from Unidirectional Packet Traces <i>Toshihiko Kato, Leelianou Yongxiale, Ryo Yamamoto, and Satoshi Ohzahata</i>	23
Intrusion Detection Using Indicators of Compromise Based on Best Practices and Windows Event Logs <i>Maria del Carmen Prudente Tixteco, Lidia Prudente Tixteco, Gabriel Sanchez Perez, and Linda Karina Toscano Medina</i>	29
Comparative Study of Routing Protocols in Ring Topologies Using GNS3 <i>Roberto Alejandro Larrea-Luzuriaga, Jose M. Jimenez, Sandra Sendra, and Jaime Lloret</i>	38
Enhancing Network Security Environment by Empowering Modeling and Simulation Strategy (Cyber Protect Simulation Lesson Learned) <i>Rudy Agus Gemilang Gultom and Baskoro Alrianto</i>	45
