Table of Contents

Building a House of Cards: On the Intrinsic Challenges of Evolving Communication Standards 1
Jean-Charles Gregoire

Secure User Tasks Distribution in Grid Systems 7
Maxim Kalinin, Artem Konoplev, Dmitry Moskvin, Alexander Pechenkin, and Dmitry Zegzhda

Analysis of Scheduling Algorithms with Migration Strategies in Distributed Systems 12
Francisca Aparecida P. Pinto, Chesley B. Chaves, Lucas G. Leite, Francisco Herbert L. Vasconcelos, and Giovanni C. Barroso

A Cloud-based Multimedia Function 18
Jean-Charles Gregoire and Mohamed Amziab

Secure Heterogeneous Cloud Platform for Scientific Computing 24
Alexey Lukashin and Vladimir Zaborovsky

An Architecture for Risk Analysis in Cloud 29
Paulo Silva, Carlos Westphall, Carla Westphall, Mauro Mattos, and Daniel Santos

MEDIACTIF - A Dynamic, Centralized and Real-time Digital Signage System for Smooth Pedestrian Flow Control with Arbitrary Topologies 34
Samuel Ben Hamou, Thierry Simonnet, and Jacques Angele

System Design Artifacts for Resilient Identification and Authentication Infrastructures 41
Diego Kreutz, Oleksandr Malichevskyy, Eduardo Feitosa, Kaio Barbosa, and Hugo Cunha

Design and Implementation of an Interaopreable and Extednable Smart Home Semantic Architecture using Smart-M3 and SOA 48
Haitham Hamza, Enas Ashraf, Azza Nabih, Mahmoud Abdallah, Ahmed Gamaleldin, Alfredo D'Elia, Hadeal Ismail, Shourok Alaa, Kamilia Hosny, Aya Khattab, and Ahmed Attallah

Theoretical Suggestion of Policy-based Wide Area Network Management System 54
Kazuya Odagiri, Shogo Shimizu, and Naohiro Ishii

Multi-controller Scalability in Multi-domain Content Aware Networks Management 62
Eugen Borcoci, Mihai Constantinescu, and Marius Vochin

Analytical Evaluation of Call Admission Control for SFR-Based LTE Systems 69
Seung-Yeon Kim, Hyong-Woo Lee, and Choong-Ho Cho

New IPv6 Identification Paradigm: Spreading of Addresses Over Time 74

Florent Fourcot, Stefan Kopsell, Frederic Cuppens, Laurent Toutain, and Nora Cuppens-Boulahia

An Improved Hybrid Scheduler for WiMAX and its Performance Evaluation 84
Anju Lata Yadav, Prakash D. Vyavahare, and Prashant P. Bansod

Meshed Tree Protocol for Faster Convergence in Switched Networks 90
Kuhu Sharma, Bruce Hartpence, Bill Stackpole, Daryl Johnson, and Nirmala Shenoy

Measuring Quality and Penetration of IPv6 Services 96
Matej Gregr, Tomas Podermanski, and Miroslav Sveda

On Service-Oriented Architectures for Mobile and Internet Applications 102
Sathiamoorthy Manoharan

Collaborative Wireless Access to Mitigate Roaming Costs 107
Carlos Ballester Lafuente, Jean-Marc Seigneur, and Thibaud Lyon

Traffic Offloading Improvements in Mobile Networks 116
Tao Zheng and Daqing Gu

Security Issues in Cooperative MAC Protocols 122
Ki Hong Kim

UBI-CA : A Clustering Algorithm for Ubiquitous Environments 127
Rim Helali, Nadia Ben Azzouna, and Khaled Ghedira

Protocol Independent Multicast in OMNeT++ 132
Vladimir Vesely, Ondrej Rysavy, and Miroslav Sveda
