

Table of Contents

An Automated Framework for Command and Control Server Connection and Malicious Mail Detection <i>Lo-Yao Yeh and Yi-Lang Tsai</i>	1
DropTail Based ConEx Applied to Video Streaming <i>Ali Sanhaji, Philippe Niger, Philippe Cadro, and Andre-Luc Beylot</i>	3
Toward a Semantic Based Signage Digital System: Mediactif <i>Thierry Simonnet, Caroline Collet, Corinne Berland, and Samuel Ben Hamou</i>	11
A Self-contained Software Suite for Post-Disaster ICT Environment Using Linux Live USB <i>Vaibhav Garg, Kotaro Kataoka, and Sahil Sachdeva</i>	17
The Percolation Theory Based Analysis of Data Transmission Reliability via Data Communication Networks with Random Structure and Kinetics of Nodes Blocking by Viruses <i>Dmitry Zhukov and Sergey Lesko</i>	24
Terminal Virtualization for Mobile Services <i>Tao Zheng and Song Dong</i>	31
Internet of Things and OPC UA <i>Ravish Kumar and Arijit Kumar Bose</i>	38
Peer to Peer Media Management for Augmented Reality <i>Raimund Ege</i>	44
An Improved Control Algorithm for a Class of Photonics Timeslot Interchanger <i>Luai E. Hasnawi and Richard A. Thompson</i>	50
The Uncompress Application on Distributed Communications Systems <i>Sergio De Agostino</i>	55
Locator/Id Split Protocol Improvement for High-Availability Environment <i>Vladimir Vesely and Ondrej Rysavy</i>	61
An Integrated Testbed Environment for the Web of Things <i>Mina Younan, Sherif Khattab, and Reem Bahgat</i>	69
MCAST: Mobility-aware Channel-Availability based Channel Selection Technique <i>Md Arafatur Rahman, Roberto Savoia, and Mohammad Moshee Uddin</i>	79

Computer-aided Knowledge Extraction and Management for Decision Supporting Processes <i>Lidia Ogiela and Marek Ogiela</i>	86
Unified POF Programming for Diversified SDN Data Plane Devices <i>Haoyu Song, Jun Gong, Hongfei Chen, and Justin Dustzadeh</i>	92
Compass: A Data Center Bootloader for Software Defined Infrastructure <i>Shuo Yang, Weidong Shao, Haoyu Song, and Wei Xu</i>	98
Time Diversity based Iterative Frequency Estimation with Weighted Average Scheme with Low SNR for Pulse-Doppler Radar <i>Sangdong Kim, Yeonghwan Ju, and Jonghun Lee</i>	104
All-In-One Streams for Content Centric Networks <i>Marc Mosko and Ignacio Solis</i>	108
Flexible Design of a Light-Architecture Content Streaming System with Dual Adaptation <i>Eugen Borcoci, Cristian Cernat, Radu Iorga, Jordi Mongay Batalla, and Daniel Negru</i>	114
Video Distribution by Special Hardware Tools <i>Sven Ubik, Jiri Navratil, Jiri Halak, and Jiri Melnikov</i>	120
Synthesis of Two Solutions of Mobility Prediction Based on Data Mining Techniques <i>Linda Chamek, Mehammed Daoui, Malika Belkadi, and Mustapha Lalam</i>	124
