Table of Contents

A Novel Spectrum Sensing Scheme for Dynamic Traffic Environments 1
Keunhong Chae and Seokho Yoon

Utility-based Approach for Video Service Delivery Optimization 5
Diallo Mamadou Tourad, Abd-elrahman Emad, Fieau Frederic, and Afifi Hossam

Perceptual Semantics for Video in Situation Awareness 11
Maria Alejandra Pimentel-Nino, Maria Angeles Vazquez-Castro, and Inigo Hernaez-Corres

On Server and Path Selection Algorithms and Policies in a light Content-Aware Networking Architecture 17
Eugen Borcoci, Marius Constantin Vochin, Mihai Constantinescu, Jordi Mongay Batalla, and Daniel Negru

Building Efficient End-to-End Service Transparent Fiber Networks Supporting Access Rates Beyond 10Gb/s 23
Theofanis Orphanoudakis, Chris Matrakidis, Christina (Tanya) Politi, Alexandros Stavdas, Helen-Catherine Leligou, and Evangelos Kosmatos

Hybrid Optical Network with Traffic Classification and Switching Selection Scheme Based on Fuzzy Logic 29
Ana Carolina Silva and William Giozza

Performance of Low Buffer Resource Flexible Router for NoCs 35
Israel Mendonca dos Santos, Felipe M.G. Franca, and Victor Goulart

Inferring TCP Congestion Control Algorithms by Correlating Congestion Window Sizes and their Differences 42
Toshihiko Kato, Atsushi Oda, Shun Ayukawa, Celimuge Wu, and Satoshi Ohzahata

The K-means and TSP Based Mobility Protocol Modeling as a Probabilistic Combinatorial Optimization Problem 48
Monia Bellalouna, Afef Ghabri, and Walid Khaznaji

Wireless Ad Hoc Networks Resilience Through Cooperative Communication 54
Ulisses Rodrigues Afonseca, Thiago Fernandes Neves, and Jacir Luiz Bordim

Node Pair Selection Scheme for MIMO Multiuser System Using Repeated Application of Stable Matching Algorithm 60
Tetsuki Taniguchi and Yoshio Karasawa

Evaluation of the New e-Health Signaling Model in the USN Environment 65
Adel Mounir Said and Ashraf William Ibrahim

On Throughput Performance and its Enhancement in Mobile Ad Hoc Networks (MANETs) 73
Mouna Abdelmoumen, Mariem Ayedi, Mounir Frikha, and Tijani Chahed

In Vehicle Communication Networks : A Power Line Communication Study and Demonstrator for Infotainment Applications 79
Fabienne Nouvel and Philippe Tanguy

Development of a Remote Management System for Automatic Parking Towers through Mobile Devices 86
Jin-Shyan Lee, Ta-Cheng Chien, and Yuan-Heng Sun

An Assessment of the Contemporary Threat Posed by Network Worm Malwar 92
Luc Tidy, Khurram Shahzad, Muhammad Aminu Ahmad, and Steve Woodhead

Improving Resource Discovery and Query Routing in Peer-to-Peer Data Sharing Systems Using Gossip Style and ACO Algorithm 99
Hanane Hamdi and Fouzia Benchikha

Improving Network Traffic Anomaly Detection for Cloud Computing Services 107
Ana Cristina Oliveira, Marco Spohn, Reinaldo Gomes, Do Le Quoc, and Breno Jacinto Duarte
