

## Table of Contents

|   |    |
|---|----|
| Verifying Distributed Algorithms with Executable Creol Models<br><i>Wolfgang Leister, Joakim Bjork, Rudolf Schlatter, and Andreas Griesmayer</i>  | 1  |
| Identifying Software Hazards with a Modified CHAZOP<br><i>Bernhard Hulin and Rolf Tschachtli</i>  | 7  |
| Performance-oriented adaptive design for complex military organizations<br><i>Liu Zhong, Jincal Huang, Tan Yuejin, Wang Chaoyang, Ma Jianguang, and Yang Guoli</i>                      | 13 |
| Study of Polynomial Methods of Finite Differences for the Wavelength Division Multiplex Mesh Networks with Dedicated Optical Path Protection<br><i>Stefanos Mylonakis</i>               | 19 |
| Performance of relay-aided distributed beamforming techniques in presence of limited feedback information<br><i>Alexis Dowhuszko, Turo Halinen, Jyri Hamalainen, and Olav Tirkkonen</i> | 28 |
| Tolerant Control Scheme Applied to an Aerospace Launcher<br><i>Nabila Zbiri, Zohra Manseur, and Iskander Boulaabi</i>   | 35 |
| An Intelligent System to Enhance Traffic Safety Analysis<br><i>Andreas Gregoriades, Kyriacos Mouskos, Neville Parker, Ismini Hadjilambrou, Natalia Ruiz-Juri, and Aneesh Krishna</i>    | 42 |
