

Table of Contents

Developing Safe Control Systems using Patterns for Assurance <i>Andre Alexandersen Hauge and Ketil Stolen</i>	1
Patterns in Safety System Development <i>Jari Rauhamaki, Timo Vepsalainen, and Seppo Kuikka</i>	9
Safety-Related ASIC-Design in Terms of the Standard IEC 61508 <i>Ali Hayek and Josef Borcsok</i>	16
Power Grid Safety Assessment Based on Linguistic Causal Network Under Uncertainties <i>Eugeniy Brezhnev,, Vyacheslav Kharchenko, and Artem Boyarchuk</i>	22
Robust Monitoring of a Conditional Distribution in Economic Data Streams Using Statistical Depth Functions <i>Daniel Kosiorowski</i>	28
Static versus Dynamic Group-Screening Models <i>Dieter Claeys, Joris Walraevens, Bart Steyaert, and Herwig Bruneel</i>	32
Algorithm-Based Master-Worker Model of Fault Tolerance in Time-Evolving Applications <i>Md Mohsin Ali and Peter Strazdins</i>	40
